SUBJECT: Letter of Appreciation

TO: CC

Recently, our shop had a 150 cu. ft. refrigerator box with a warped door. It was sent to SRI for repair and they determined that a new door was required. Due to the age of the equipment a new door would have to be local manufactured as it could not be purchased. The job was assigned to Amn Hensley, Darren L. who has recently arrived from technical school and is in upgrade training to his five skill level. The quality of the work exhibited by this individual is no less than superb. Comparison to the original doors on the other units revealed no differences; as if a journeyman, not an apprentice, had done the exacting work. He can be truly proud of a job well done.

Please pass on my appreciation to Amn Hensley for his outstanding skill in support of our mission. This type of exceptional work is also a direct reflection on the leadership and supervision within the SRI shop.

My congratulations to all, and especially to Amn Darren Hensley. Please reflect these comments in Darren's APR.
